Free Trial Download

All products are available for free trial download. You can keep the trail version for an unlimited time. The application developed based on the development toolkits and without a proper license runs for 30 minutes for your evaluation. The testing tools run for 5 minutes in absence of proper license. Once you are satisfied with the module's performance and features, please follow the licensing procedure below to obtain a permanent license.

We strongly encourage you to download and test the free version of software before making a purchase. All purchases are final and there would be no return, refund or credit.

How to Purchase

Please navigate to the corresponding product of the web site www.ControlToolbox.com. Please locate the desired product and proceed with the payment through our secure payment process. Please read on to find out how you can obtain a permanent license for the product.

Licensing Procedures

Please send us an email after you make your payment through our secure payment process. We generate a client ID for you and return it to you along with the license code. Please note that you need to keep the client ID since you will be asked to submit it as your reference number with each support email. The license is issued to your company and cannot be shared with any other organization of any type.

Please make sure that you include the Model No as listed above in your email.

All emails for sales must be sent to sales@controltoolbox.com

Licensing

There is no extra user seat or developer fee required as long as the product is only used within your organization. ControlToolBox products cannot be lent or sold to a third party without prior concession by ControlToolBox.

Support

Technical support is included for 3 months after the purchase. If additional support is required by the customer, 25% of the original price will be charged per year. If you purchase the additional support, you are entitled to receive free upgrades of the purchased software as long as you have a current support engagement with us.

All emails for support must be sent to support@controltoolbox.com
